OBJECTIVE

Looking For A Challenging Role In A Reputed Organization To Utilize My Technical Skills And Management Skills For The Growth Of The Organization, As Well As To Enhance My Knowledge About New And Emerging Trends In IT Sector..

EDUCATION

Bachelor Of Engineering , Pune University   **July 2024**
CGPA: 8.21

SKILLS

Technical Skills	Html, Css, Javascript, C, C++, C#, .Net, Python, UI/UX, Figma, Mysql, Sql, Web Development, Software Development, OOPS, Agile methodology
Soft Skills	Communication, Teamwork, Problem solving, Time Management

EXPERIENCE

React.Js Developer Intern   **Aug 2024 – Oct 2024**
Xenosis IT Solutions   *Nagpur (Remote)*

- Developed a **Resume Builder Application** using **React.js**, enabling users to select and customize resume templates.
- Implemented **dynamic template selection** and **real-time template previews**, improving the user experience.
- Integrated **PDF generation and download functionality** using libraries like jspdf-react, ensuring cross-browser compatibility.
- Designed a **responsive user interface** with **Ant Design**, providing a seamless experience across devices.
- Applied **form validation** and **auto-save features** for smoother data entry.
- Focused on **clean, modular code** following best practices in React development.

C#.Net Developer Intern   **Jan 2023 – Feb2023**
Emerging Technologies Software & Automation solution   *Nashik*

- Acquired foundational knowledge in C# and .NET development, focusing on object-oriented programming and web services.
- Gained proficiency in using Visual Studio IDE for developing and debugging applications.
- Utilized Firebase as a backend database, implementing real-time data synchronization and authentication features.
- Integrated Firebase authentication to secure user data and enable seamless sign-up/login functionality.
- Worked on debugging and performance optimization in Visual Studio to ensure efficient application operation.
- Developed a clone of Notepad, replicating its basic functionality for text editing.
- Created a simple compiler clone, enabling code input, execution, and output display within the application.

CERTIFICATIONS

Java Training,   **Aug 2024**
Besant Technologies

Ethical Hacking,   **Apr 2023**
Internshala

Cloud Virtual Internship,   **Jul 2023**
Amazon Web Services (AWS)

HTML Essential Training,   **Sep 2022**
IBM

EXTRA-CURRICULAR ACTIVITIES

- During my graduation in 2023, I promoted and communicated details of various college events, driving participation and ensuring the success of campus-wide campaigns.

- Competed in a school-level Kabaddi tournament in 2018 while in Xth grade, demonstrating teamwork and athletic skills

PROJECTS

Book Lending web application

- Designed a user-friendly interface using HTML, CSS, and Bootstrap to create a responsive platform accessible on various devices.

- Integrated Firebase for real-time data updates, ensuring that book listings and transactions were reflected instantly across the platform.

- Implemented Firebase Authentication to allow users to securely register, log in, and manage their accounts.

- Developed features for users to search and filter books by categories like genre, author, and price.

- Enabled users to track their book purchases and sales, and manage transaction history.

- Leveraged Firebase's real-time database to sync book listings and transactions dynamically across all users.
